

Intervention Ms Berit Hundaala at the conference “The Water Energy and Food Security Nexus. Solutions for the Green Economy” 16-18 November 2011 in Bonn, Germany

Berit Hundaala, board member of the World Farmers Organisation, highlighted in particular women farmers role during the conference. “In this broad picture of water, energy and food security we must not forget the farmers role, and in particular the women farmers. The women produce half of the food in the world, in Africa up to 90%. Still only 15% of the landowners are women, and they receive only 10% of the credit” Berit Hundaala said to the participants in the conference “The Water Energy and Food Security Nexus. Solutions for the Green Economy” 16-18 November 2011 in Bonn, Germany.
